ARTIST BIOGRAPHY

Aline Umbër—the French duo of Aline Brooklyn and Aman Umbër—is redefining the boundary between the DJ booth and the live stage. Since their 2022 debut, they have carved out a singular sonic identity: a high-energy blend of avant-garde house, soulful funk, and live instrumentation.

Their ascent was solidified by a landmark, sold-out performance at Cabaret Sauvage, where they transformed their electronic roots into a full-band experience. This performance birthed the two-part live vinyl album on their own A.B. Records, yielding fan-favorites like "Bazen" and "Down To Earth." With a discography spanning heavyweights like Crosstown Rebels and Yoyaku, alongside their own Telluric Village imprint, the duo's funky, groove-led sound has captured the industry's and fans alike full attention.

2025 served as their definitive breakthrough, landing them on the world's most prestigious stages. From an legendary debut at fabric London to a massive closing set for VBX x ADE at Shelter, they have become a must see act at global institutions like Circoloco DC-10, Burning Man, Factory Town, Cocorico, and Output Off Sonar.

As they head into 2026, the momentum is only growing. With confirmed shows at Solid Grooves (Space Miami), After Capsule Venice, and a return to Circoloco, paired with a relentless string of vinyl and digital releases, Aline Umbër continues to prove they are one of the most credible and exciting acts in dance music today.
