

GENERAL REQUIREMENTS & BOOTH SET UP

- 2x High quality monitor placed at shoulder height on the left and the right side of the artist, controllable from the mixer
- Monitor system must not be behind or on the floor
- In the event that it is only possible to place the monitor mono or on one side, it must be on the right side of the artist.
- Monitor power must be derived from a power source other than that of the house system.
- The volume must be able to be controlled by the artist
- Few small lights around instrumentation (ex. on turntables pitch, record bag) and 1x records rack set up on table
- Engineer must be taking care of the PA system at all time.
- NO direct bright spotlight on the artist.
- Artists prefer warm colors and a cozy atmosphere with light on the equipment.
- The ARTIST's preference is for the dance floor to be cosy and inviting, where dancers are encouraged to connect deeply with the music. With this in mind, the ARTIST requests that the dancefloor is not brightly lit
- A tiny desk lamp or comparable light is sufficient for the ARTIST to see the mixer and records without shining direct light onto the DJ booth.
