ARTIST BIOGRAPHY

Highly regarded as a versatile and talented artist , not only in his home country Chile but the world out. A career spanning 20+ years, his ties to some of the most integral and quality musicians and industry wide individuals easily exposes which side he is on.

Felipe comes from a pool of artists from a generation that for sure “interacts” with the current one through ways of working, relationships and beyond, but there is one thing they have as a core, a base to it all: their values. Some of these are integrity, care, sharing, educating, learning, being humble, always and forever prioritising music above all things and against all odds.

With an infinite discography and extensive musical background that spans decades, the head behind labels such as Melcure, HC and Cure music defines his career as a protracted palette of colours. From classical to rock and from indie to new wave, Felipe has dedicated most of his life to developing his perspective on all musical trends, and the last 20 years, focused on exploring electronic sounds and all its sub-genres.

As an inveterate music lover and collector, it is clear to define him as a broad dj with a diverse vision, one that defies any narrowed musical genre specification, it is very wide, that combined with a very personal musical identity, absorbing from each style while generating what we call “the stamp”, the bit that defines one as “an artist”, their unique points.

Many labels and Alter egos define this audio engineer as a complete and open minded producer. Among his collaborations we can find him as: FAER, AHORA, Acapulco heat, Calcio Club, Bichos raros, Frame fragments and colaborations with Dorian Paic, Dani Casarano, among many others, in addition to his multiple solo projects.
