LAYERS

A hand with teal nail polish is holding a pen over a document. The word 'LAYERS' is visible on the document. The background is dark and moody.

THE

MISSION

In today's creative scene, FLINTA+ artists often find themselves in the shadows as other voices dominate the spotlight, particularly those of male artists and the male gay community. - What's missing?

Spaces where the FLINTA+ community and their artists can truly be themselves without getting drowned out. Recognizing this gap, our collective is on a mission to carve out those safe, inclusive spaces. These aren't just events; they're sanctuaries where FLINTA+ talent isn't just seen but celebrated. We're here to shake up the status quo, giving these artists a platform where they're not an afterthought, but the main act in a scene that's ready for a more diverse and authentic narrative. Our mission is anchored in the belief that a supportive and interconnected community is the catalyst for unlocking the full potential of FLINTA+ creatives.

We are a FLINTA+ collective and creative network that is rooted in the music and arts industry, focusing on fostering collaboration between FLINTA+ creatives and strengthening their community.

We are committed to empowering FLINTA+ artists by providing platforms that amplify their voices and offering resources to enhance their skills, fostering a community where everyone can grow and thrive. Here we also act as artists agency representing our residents.

We want to encourage individuals to grow their skillset and discover their identity, by giving them a shared stage and mentorship with established FLINTA+ artists.

ARTISTS

HEDDA

Being heavily involved in the bass music scene in Berlin, HEDDA always serves you with bangers of the fast and hectic sort to create that kind of multigenre-rave we're all so down for. After joining the @capsule.berlin team in 2021, as well as organising club events and raves, she joined Layers and has expanded her taste to a mix of juke, jungle, hardcore, breakbeat, gabber, trance and dembow with fast-paced drums, hard hitting kicks and the catchiest vocals there is. For her, it's impossible to stick to one genre, cause that's obv boring - duh.
