ARTIST BIOGRAPHY

Coming right down from Ibiza, the JNJS duo is composed of Jay Nortown and Jacobo Saavedra.

Proud Circoloco Ibiza Residents at DC10, you can usually find them on Mondays heating up the dance floor for some of the biggest artists of the industry.

They collaborate assiduously with Slapfunk, Les Enfants and Friedas and travel every year to Marrakech (for Supervibe) and Zanzibar (for Why? Not).

When we ask them about their music style, they'll tell you it's hard to categorize. Eclectic with high-energy sessions, being a duo allows them to consistently challenge each other, which pushes them to navigate through a large spectrum of sounds.

On top of their DJ game, their productions are getting played by top DJs such as Raresh, Magda, Enzo Siragussa, Traumer, Sedef Adassi or Priku, who select their tracks for their sets at the best clubs and festivals.

Velvet Label Bosses, they have released vinyl-only EPs from Silverlining, Triptil, iO Mulen or Alexis Cabrera, but also some digital format with artists like Cosenza or Jamahr.

They keep traveling around the world to play in clubs and festivals, sharing their sound and energy wherever they land.
