ARTIST BIOGRAPHY

Foreword:

After losing his hair at a younger than socially acceptable age, Nate laid his head on the pillow in acceptance, a single tear rolling down his youthful cheek. That night, he was visited by the godmother of all things creative. As she stroked his smooth scalp she whispered into his ear a revelation that would forever change his path - 'Make beautiful music and throw parties for all the people to enjoy'.

When Nate awoke the next morning, he saw his future clearly. After countless lonely hours in his dark bedroom cocoon, he would emerge once more into the world - a musical butterfly. This is his story.

The Nuts & Bolts:

A product of Australia's emerging house music scene, Nate is a creative in the purest sense of the word - DJ, Producer, Designer, Dancer, and a natural in the booth.

Co-founder and head of A&R at 'Conspiracy', Nate's individual sound and colourful identity have laid the foundations for the platform to become one of Australia's leading record labels with an impressive list of sold out parties to accompany the title.

Nate also heads up his own self-release label and event 'When Dogs Fly' plus the intimate 'Tensions' parties, all based in Barcelona where he now resides.

For Nate, his vision is simple: to keep listeners on the edge of their seat with each new body of work; and to deliver said works with a genuine love and energy.
