ARTIST BIOGRAPHY

Sibil is a selector who thrives on contrast—discipline meets freedom, precision meets wildness.

Raised in France with a foundation in classical music, she now calls Slovenia home, where her sound has evolved into a vibrant fusion of groove-heavy basslines, playful vocal fragments, and dream-soaked synths. As part of the LuckIsOn label and collective, she carries forward its spirit of community and forward-thinking artistry, shaping her identity through bold selections and immersive storytelling. Her sets are designed as journeys, inviting dancers to lose themselves in unexpected turns and euphoric highs.

Known for her radiant presence behind the decks, Sibil doesn't just play music—she creates a dialogue with the crowd, weaving emotion and energy into every moment. With one foot rooted in tradition and the other chasing the future, she embodies a unique duality: refined yet raw, technical yet spontaneous, always driven by the pulse of the dance floor.
